

Philanthropic Team Building

Great for groups seeking dynamic interaction with colleagues while making a difference in the community.

BUILD-A-BIKE®

The Build-A-Bike® event runs between 90 minutes and two hours, but it can be customized to fit your schedule, group size, and learning objectives. In this workshop, participants are divided into smaller groups to complete challenges and build bicycles for children from local charities like the YMCA or Boys and Girls Club. This activity fosters teamwork and brings joy to young recipients.

THE ACE RACE®

The Ace Race® Mini-Golf for Charity is an exciting team building event where participants build a mini-golf course using non-perishable food items. These items are donated to a local food bank at the end. Teams are organized into small groups to construct a custom golf hole, competing to complete the course first. This event combines fun with a sense of accomplishment and contribution.

THE RESCUE BEAR®

The Rescue Bear® is a teddy bear team building event where participants solve puzzles and decipher codes to acquire parts for building custom teddy bears, bunnies, cows, and cats. This activity highlights individual strengths and talents, promoting group achievement. The completed bears are donated to Ronald McDonald House, children's hospitals, or fire departments.

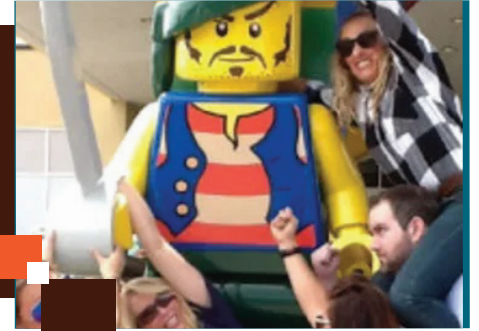

AMAZING BUILDERS

The Amazing Builders team building event is our newest philanthropic activity. It focuses on enhancing verbal and non-verbal communication among team members. Participants navigate a self-made obstacle course blindfolded while receiving directions from teammates. It's a fast-paced and hilarious event that also promotes learning and growth. Donations of dog toys, school supplies, supplies for the unhoused, and military goody bags are made to local charities.

CAMARADERIE QUEST

Camaraderie Quest is a custom high-tech scavenger hunt tailored to your group and location. Teams use smartphones to solve problems, take photos, and record videos. We collect and score the results, with an optional donation to charity on behalf of your company.

ESCAPE ROOM TEAM - MY RICH UNCLE

In this escape room scenario, your wealthy Great Uncle has passed away, leaving a will that specifies the true heir. Teams watch a humorous last-will video, then race to solve puzzles and unlock a briefcase. Unlike typical escape rooms, this activity encourages teamwork and communication for quicker solutions. An optional charity donation can be included.

I'M IN IT TO WIN IT

I'm In It to Win It starts with an icebreaker that organizes participants into small teams. The host explains each activity with visual examples, allowing teams to practice and select the fastest member for each task. The competition begins with teams rotating through activities, scoring points based on speed. The host tallies scores, and a champion team is crowned.

THE CHARADE MURDER MYSTERY

The Charade Murder Mystery event starts with fun exercises to improve communication. Suddenly, an executive "falls" victim to a staged murder. Teams are divided into CSI groups to investigate, search for clues, interrogate witnesses, and check alibis to identify the murderer. The challenge is distinguishing real clues from red herrings.
